

Technology Committee Meeting January 31, 2023

In Attendance: Truman Brandt Heather Cardwell Amy West Carrie Gonzalez Hillary Haff
Casey Holbrook Jennifer Lorentz Kristine Hill John Vance Sierra Frazier Jennifer Watson
Jessica Hanbury Jenny Schill

- Welcome
- CS Updates - Yvonne
 - CTE Computers - Desktops / laptops / Chromebook with virtual access to desktop?
 - Thoughts on white listing some apps from the Playstore
 - For staff?
 - Students? K-2, 3-5, 6-8, 9-12?
 - [Region III Quarterly Slides](#)
- STEAM Night - Thursday, March 9, 2023
 - Location: KGHS
 - Dinner, Activities, Hands On Interaction, Information Booths
- Technology Updates
 - KGCS - Building projects (Door Access KGHS, PES, KGMS)
 - Preschool/SBO Desktop Refresh
 - Virginia - State Technology Plan
 - Role of ITRT
- KGMS Piloting LanSchool Air (Possible replacement to NetRef)
 - "I like this so much better!! It seems to be more responsive, easy to set-up, and much less clunky."
- [Neptune Navigate](#)
 - Online Digital Citizenship Courses K-12 & Staff
 - Will work to implement/embed this curriculum piece at all levels
 - This will help us meet the E-Rate requirements by providing Internet Safety/Digital Citizenship
- Interactive Panels
 - TouchView Panel
 - Has been housed at KGMS with Ms. Ale - The interactive board was used by over 300 7th graders in station activities, it was a fairly simple activity utilizing Google Draw and the interactive panel. Student work was able to be saved to Google Drive for sharing. This board would replace a projector, Ipevo pen, and document camera. It also allows teachers to move from behind their desk and be at the front of the room. There is still a lot to learn about this tool. One notable drawback is that there doesn't seem to be the ability to save to Google Drive from Google Drive.
 - NewLine Panel
 - Demo board is on the way
 - Mimio Teach - Portable Interactive Whiteboard (similar to ipevo IW2)
 - Demo has been delivered
- Phishing Email Incident
 - 225 Recipients

- 4 employees responded to the email providing personal information

Tech Plan Talk:

Potential goal: Promote leadership by increasing the quantity and quality of technology used to support student learning, instructional effectiveness, monitoring of student progress, and communicating with stakeholders.

Results (what do we want to accomplish?)

% of teachers reporting they regularly use technology to communicate with parents/guardians.

% of teachers feel supported by Tech Dept.

% of teachers reporting student use of technology in their classroom integral to teaching and learning.

% of KGCS employees who have been trained in Technology.

Indicators (what evidence will exist of completion?)

*Completed staff technology survey.

*Training log-maybe a percentage of teachers ex 100% of new hires trained in technology, 75% of current staff etc

*Addition/expansion of technology to paraprofessionals (**they are asking for training!**)

- Learning
- Teaching
- Leadership
- Infrastructure
